Enervent Neo

| THE ONLY FIT |

Now you can place the ventilation unit out of sight easily and without significant investment: Neo is slim, lightweight and the only unit on the market that fits in a standard 60 cm cabinet.

SIZE MAKES THE DIFFERENCE

Enervent Neo redefines ventilation from planning to installation. Neo's light, slim design means it is the only unit on the market that fits in a standard 60 cm cabinet. Now you can place the unit out of sight without significant investment.

THINKING INSIDE THE BOX

Neo is a new kind of a ventilation unit from the inside out. Its novel insulation solution makes the unit both lightweight and highly energy efficient. The material's excellent insulating properties are particularly suited to cold environments by eliminating the danger of the unit freezing.

NATURALLY WE TRIED TO BURN IT

Enervent Neo is a safe choice for efficient air ventilation. Neo's insulation material has been proven to be fire safe in numerous tests. This completely revolutionises the design of the unit without additional risk. Installing the lightweight unit is safe even in restricted spaces.

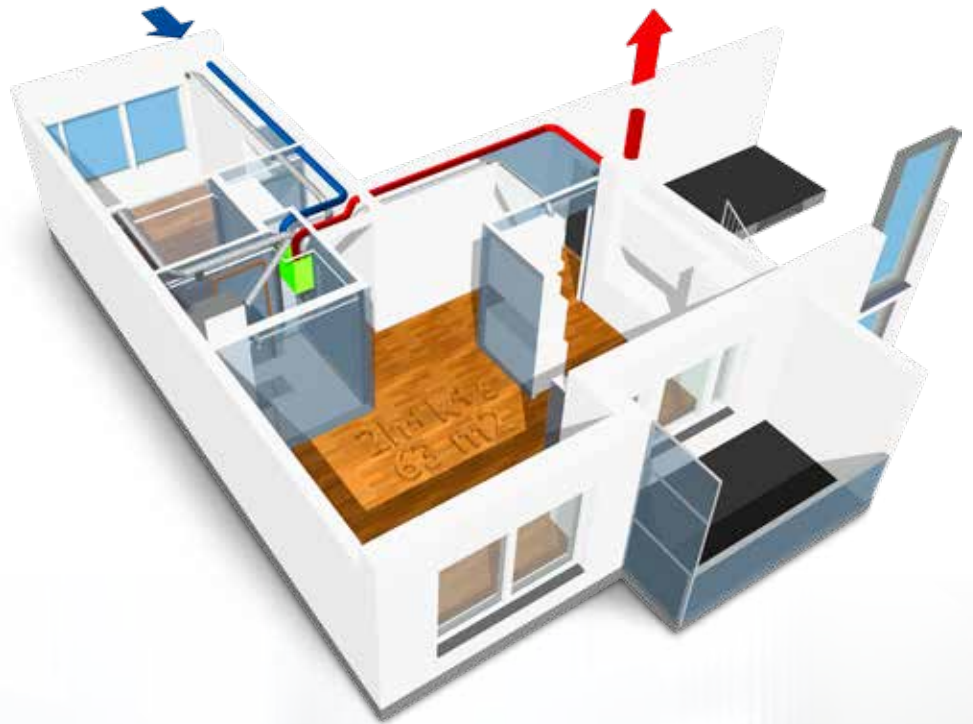

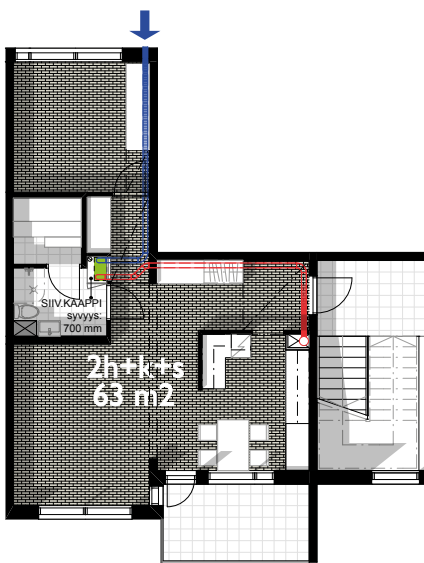

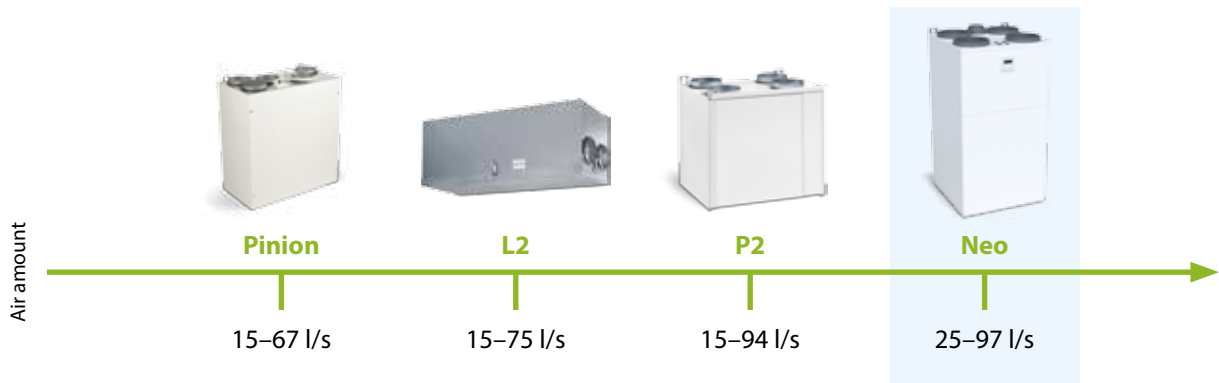

Technical information

Air volume flow	97–360 m ³ /h
Pressure difference	27–100 Pa
Duct size	Ø 160 mm
Weight	58 kg
IP class	IP44 (external control IP20)

Insulation material	EPP, fire retardant
Material outside cover	Steel sheet, zinc coated, powder painted Fire class: A2-s1, d0
Dimensions	545 x 545 x 976 mm

For complete technical information and technical drawings go to www.neo.enervent.com

Neo is most suitable for medium sized detached houses or apartments.
It is also suitable for public spaces where only a limited amount of air is required.

CASE: Apartment building, Helsinki

- 52 apartments
- Apartment size 38–110 m²
- Air ventilation unit: Enervent Neo

The air ventilation unit can be placed in the hallway or bathroom according to the layout's demands. Units can be easily and cost efficiently installed in standard sized cabinets.

ISN'T IT EASIER WHEN THINGS JUST FIT?

Place this sticker on the wall, floor or table
and use the Liveprint app to see how
Neo fits into your project!

Optimal viewing distance is 1,5–2 m.
